

Raritan's Deal Registration

The premise of Raritan's Deal Registration Program is to protect the participant that discovers the deal and does the work associated with an opportunity.

- Deal Registration is only available for [deals over the registration threshold of \\$10,000 \(MSRP\) in the US and \\$5,000 \(MSRP\) in Canada and Latin America](#). A reseller that successfully registers the deal [receives an additional 10% discount off MSRP](#) – when the order is placed.
- [***Where do I register my deal?***](#) All requests for registration are made at the Deal Registration site, registration.raritan.com. To register a deal you will initially be required to sign-up and receive a user-name and password (this is only the case the first time through the process).
- [***How quickly will my registration be approved?***](#) Requests are time-stamped, and will be considered and processed on a strict First-in, First-out (FIFO) basis. Requests will either be approved, denied, or require additional information. Response will be timely, in most cases well within 24 hours of being received by Raritan.
- [***How long is my registration valid for?***](#) Approved deals will be protected for 120 days. Extensions will be approved in 60-day increments. Any request for an extension is the responsibility of the Partner or reseller who registered the deal. To request that a registration be extended (or “refreshed”), simply go to the deal registration area located at www.raritan.com.
- [***What type of deals can I register?***](#) Any Raritan deal over the \$10K MSRP threshold. “Accounts” may **not** be registered; only project-oriented deals may be registered. There will only be one registration allowed for each deal. Any subsequent request by another Partner or reseller will be denied

[***And if I have questions or need help?***](#) Contact Ashley Fox, Director of Channel Sales for more details.
